### Product description

This high-quality LED headlight is specially designed for the Porsche 911 model 992.1 and provides excellent lighting for your vehicle. This is the right-hand side of the headlight system, equipped with advanced PDLS Plus technology (Porsche Dynamic Light System Plus), which offers adaptive light distribution and dynamic cornering light function. This technology improves visibility at night and in poor weather conditions by automatically adjusting the light distribution to driving situations and speeds.

The OEM numbers for this headlight include 992941040K, 992941040J, 992941040H, 992941040F, 992941040E, 992941040D and 992941040G, ensuring compatibility with your Porsche 911 and allowing for easy installation. The headlight is listed as "used" but is in very good condition and undamaged, making it a cost-effective alternative to a new part.

As an original Porsche part, this headlight not only guarantees a perfect fit and performance, but also maintains the vehicle's warranty and value. This LED headlight is an excellent choice for restoring or upgrading the lighting on your Porsche 911, offering both functionality and aesthetic elegance.
